

COVID-19: Supporting At-Home Children Resources for Parents

The COVID-19 pandemic has created challenges for families across the country. As more and more schools close, requiring school-age children to remain at home in an effort to promote self-distancing, parents are looking for ways to maintain their responsibilities while supporting the educational needs and development of those in their care. Many schools have provided distance-learning programs and resources to help students continue their education while at home. Parents are encouraged to check the information provided by local school districts to determine what steps should be taken to stay on top of their children's education.

For those parents who are looking for extra information, activities, programs, and social-emotional learning (SEL) resources, **we have prepared a list of programs and courses available from online sources.** Some of these recommendations are paid programs for those parents looking to invest in more long-term support.

- **Scholastic Learn At Home Program:** An activity portal of free daily courses for kids
<https://bit.ly/2vxRimY>
