

## Transferring a prescription is easy!

To transfer a 90-day supply prescription to OptumRx Home Delivery, use one of the following options:

- ✓ **Ask your provider to send a new, electronic prescription to OptumRx.**
- ✓ **Go to [myuhc.com](https://myuhc.com) > manage prescriptions.** You'll be taken to the OptumRx home page. Have the name of your provider, medication and prior pharmacy information available (can be found on your prescription bottle) and complete the steps online to transfer your prescription.
- ✓ **Call AGBenefits Advisor at 877-213-6240** and speak to an advisor who can assist with the transfer of your prescription. Your advisor can connect you with OptumRx or walk you through the steps on [myuhc.com](https://myuhc.com). Have the name of your provider, medication and prior pharmacy information available (can be found on your prescription bottle).

To transfer a 30-day (non-maintenance) prescription to an in-network pharmacy, use one of the following options:

- ✓ **Call your current pharmacy** with your prescription information and provide them with the name of your new in-network pharmacy. They'll manage transferring the prescription for you. To find in-network pharmacies, go to [myuhc.com](https://myuhc.com) and select Find a Pharmacy. Once you complete your search for a pharmacy, you will need to confirm that Standard Select with Walgreens is listed in the network participation section (see below).

**Network Participation: Standard Select with Walgreens**

- ✓ **Ask your provider to send an electronic prescription to any Standard Select with Walgreens participating pharmacy.** To find in-network pharmacies, go to [myuhc.com](https://myuhc.com) and select Find a Pharmacy. Once you complete your search for a pharmacy, you will need to confirm that Standard Select with Walgreens is listed in the network participation section (see above).
- ✓ **Call a Standard Select with Walgreens participating pharmacy** (your new pharmacy) and ask that they transfer the prescriptions from your previous pharmacy to them. Have your previous pharmacy information, medication names and dosage (can be found on your prescription bottle) handy when you request the transfer.
